Minirol - Macrol - Masterol

*Torque control
pneumatic rolling machines for*
**tube bundle heat exchangers
manufacture and
maintenance**

MADE IN ITALY

Maus Italia Historical notes

Franco Agostino
The founder

since 1961

At the end of the 50s, Franco Agostino seized the opportunity to grasp the art of manufacturing tube expanders which an elderly German manufacturer, Mr. Albert Otto, presented to him. Then, thanks to his indomitable courage and intuition, Mr. Agostino set up that small Italian factory that a few years later would become Maus Italia.

In those years Franco Agostino introduced the electronic control rolling system in the company's sales program, meeting the approval of the qualified and ever-demanding Italian customer base in terms of quality and safety.

Once again, at Maus Italia, the innovation arises from a long history of passion and enthusiasm, deeply rooted in the company, which infuses the proposed products.

This new catalogue aims at helping the technician in choosing the product.

Minirol - Macrol - Masterol

Torque control pneumatic rolling machines for **tube bundle heat exchangers manufacture and maintenance**

By its **Minirol**, **Macrol** and **Masterol** series, Maus Italia offers a flexible and cost-efficient solution to use tube expanders.

The Maus Italia pneumatic rolling machines are swift, light, and safe and they are the ideal solution for both **manufacturers** who are equipping themselves to expand tubes for the first time and **maintenance operators** who want to operate on-site in a **safe** and **high quality** environment.

Expansion detail with **Masterol 90** on boiler

Air conditioner and air cooler assembly

Minirol

Torque control
pneumatic rolling
machine with
automatic reverse for
1/4" to 1/2" (6.3 to
12.7 mm) tubes.

Up to
1/2"
(12,7 mm)

Heat exchanger maintenance on-site

Macrol

Wide range of torque control
pneumatic rolling machines
suitable for 3/4" to 2.1/4" (19
to 58 mm) tubes.

Up to
2.1/4"
(58 mm)

Boiler assembly

Masterol

Right angle torque control
pneumatic rolling machines
suitable for boiler tubes up
to 4" (101,6 mm)

Up to
4"
(101,6 mm)

Self-reversible

Minirol

Torque control pneumatic rolling machine with automatic reverse for **1/4" to 1/2" (6.3 to 12.7 mm)** tubes.

The **Minirol** series torque control pneumatic rolling machines with automatic reverse are designed to expand **small diameter tubes**.

They are extremely ergonomic, productive and of high quality, and particularly suitable for **manufacturers** for the assembly of tube sheet to be used in the **refrigeration and air conditioning field**.

- In aluminium
- Light and heavy-duty
- Handy
- Built-in adjustable torque control
- Automatic rotation reverse
- Extraordinary weight/power ratio
- Torque control independent from air pressure

Technical specifications		Minirol-2400	Minirol-1100	Minirol-600

• All the values are measured with air pressure equal to **6,3 bar (90 psi)**

Minirol

Torque control pneumatic rolling machine with automatic reverse for **1/4" to 1/2"** (6.3 to 12.7 mm) tubes.

Standard supply

- Transport case ■
- Minirol** pneumatic rolling machine ■
- Instruction manual ■
- F/311** quick release adapter ■
- Lubricator ■
- Air inlet coiled tube Ø 12x8 mm L=10 m ■
- Air inlet 1/4" GAS tube attachment ■
- Silencer ■
- Set of blades for motor ■
- Screwdriver for torque adjustment ■
- Auxiliary handgrip ■

**Suitable for tubes
up to 2 1/4" - 58 mm**

Macrol

Wide range of torque control
pneumatic rolling machines
suitable for **3/4"** to **2.1/4"**
(19 to 58 mm) tubes.

The **Macrol** series torque control pneumatic rolling machines are designed to be used at yards as well as to repair tube sheets directly on-site in chemical and petrochemical plants.

The **Macrol** series is produced in 5 different versions able to cover a wide range of tubes, guaranteeing to the main driving shaft an extreme sensitivity or power depending on the version chosen.

- In aluminium
- Light and heavy-duty
- Compact and handy
- Built-in adjustable torque control (with automatic stop at the set torque)
- Uniform tooling guaranteed
- Repeatability with $\pm 3\%$ tolerance
- Reversible
- Torque control independent from air pressure

Macrol

Wide range of torque control
pneumatic rolling machines
suitable for $3/4"$ to $2.1/4"$
(19 to 58 mm) tubes.

Standard supply

- Transport case
- Macrol** pneumatic rolling machine
- Instruction manual
- F/313** quick release adapter
- Lubricator
- Air inlet flexible tube: $\varnothing 23 \times 13$ mm L= 6 m
- Coiled tube for air drain: L= 2.5 m
- Set of blades for motor
- Service wrenches set

Masterol

MAUS
ITALIA

Suitable for difficult access areas

Masterol

Right angle torque control
pneumatic rolling machines
suitable for boiler tubes
up to 4" (101,6 mm)

The **Masterol** right angle torque control pneumatic rolling machines are particularly suitable to expand tubes in boilers.

The 360° manoeuvrability enables to use them in hardly reachable areas.

The torque selection is made easier thanks to a graduated adjustment ring nut.

- In aluminium and steel
- Light and heavy-duty
- Compact and handy
- Built-in adjustable torque control
(with automatic stop at the set torque)
- Uniform tooling guaranteed
- Repeatability with $\pm 3\%$ tolerance
- Reversible
- Torque control independent from air pressure
